

RE - Rural Estate District

The Rural Estate District is intended to provide the opportunity to develop a large lot subdivision prior to public utilities being available. It is intended to remain rural in character, suited for larger lot, higher end housing. To remain rural in character, the lot width and setbacks are large, a minimum subdivision area is established, and roads are designed with a rural roadway cross- section. A cluster development option allows for smaller lot sizes with larger amounts of open space.
